ACTIVITY REPORT FOR THE YEAR 2011

The activities of the Belgian Committee of the European League of Economic Cooperation over 2012 have focused on informing members, interested professionals and sympathizing individuals on actual economic and financial themes and at the same time offering them a platform for discussion and networking.

The European League for Economic Cooperation and its Belgian section have cooperated in an initiative of the “Universitaire Stichting”. This Foundation has organized on 9 May 2012 a debate on the future of the Eurozone: “The Eurozone in danger”. Prof. Alain de Crombrughe (Namur) and prof. Koen Schoors (UGent), and for the Belgian section president Freddy Van den Spiegel have participated in the debate, which was moderated by prof. Eric De Keuleneer (ULB).

On 25 November 2011 a lunch debate was organized at the premises of Bank Degroof, where Peter Praet, Director at the ECB, gave a presentation on the topic “Challenges for the governance of the European Monetary Union”. The presentation was followed by an open debate. A sandwich lunch was offered by Bank Degroof.
